

# HERITAGE WOOD SHUTTERS Elegance You Can Afford

## What To Know:

Exclusively Designed and Built By Danmer

Made Locally Right Here in the USA

Transferrable Warranty

Made from Durable, Furniture grade basswood

Patented Duraglide Louver Tension System

Our Diamond Coat Finish Seals Out Moisture

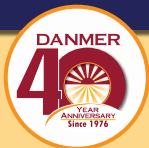

Hand Sanded to Create a Silky-Smooth Finish

Elegant and Traditional

At Danmer Custom Window Coverings, we use the highest grade USA made Basswood and Premier Hardwood to manufacture our Heritage Custom Wood Plantation Shutters. Each one is made right here in the USA to match your décor and your budget.

We use only tight grained, low resin basswood that will not bleed through or discolor plus we hand sand each panel to create a silky-smooth finish. Then our patent Diamond Coat finish seals out any moisture to seal in your wood stain or your custom color match.

Our Duraglide Louver Tension System, using nylon bushings with stainless steel pins, guarantees your wood shutters will never need tightening or adjusting. And our fastening system insures that your tilt rods will never loosen or pull out.
